

Users can not modify font style for individual data. Changes on font applies on the whole timeline.

Since font size varies if text is time, title or description, I thought of limiting the font size options to default, increase, and decrease.

Vertical Horizontal S

Font size controls: copy, paste, delete, lock, grid, font family (Montserrat), font weight (bold), font style (italic), link, unlink, and a zoom icon.

Edit button appears on hover.
Clicking "edit" button does the ff:
1. Opens up Tools > Timeline > selected timeline style
2. Enables "Edit Timeline" Mode and disables the rest of the canvas

[Change Style](#)

05:00 AM

**Double-click to Edit**

Title aligns with the timeline point for this example. This does not have any media attached to it.

06:00 AM

**Double-click to Edit**

You can add an icon, image, or video to each of the timeline points.

07:00 AM

**Double-click to Edit**

Each points may have different height depending on its content. Points' alignment adjusts automatically relative to the other points.
