S

Adding timeline:

- a. Click on any style
- b. Drag and drop to canvas

05:00 AM ● **Double-click to Edit**

Title aligns with the timeline point for this example. This does not have any media attached to it.

06:00 AM ● **Double-click to Edit**

You can add an icon, image, or video to each of the timeline points.

07:00 AM ● **Double-click to Edit**

Each points may have different height depending on its content. Points' alignment adjusts automatically relative to the other points.

07:00 AM

**Double-click to Edit**

Each points may have different height depending on its content. Points' alignment adjusts automatically relative to the other points.

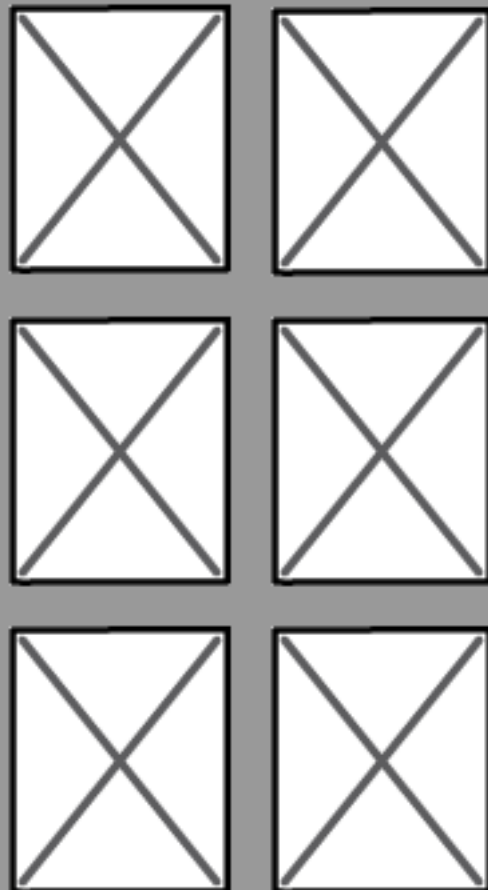

Users can not modify font style for individual data. Changes on font applies on the whole timeline.

Since font size varies if text is time, title or description, I thought of limiting the font size options to default, increase, and decrease.

Font icons, lock, grid, font family dropdown (Montserrat), font size dropdown (T), link, zoom, and canvas settings icons.

Edit button appears on hover.
Clicking "edit" button does the ff:
1. Opens up Tools > Timeline > selected timeline style
2. Enables "Edit Timeline" Mode and disables the rest of the canvas
