WORK EXPERIENCE

Lead Product Designer —Laminar Projects

DECEMBER 2022 - PRESENT / London, United Kingdom (Remote)

Collaborates directly with the co-founders, product, and engineering team to solve problems and launch new features every 2 to 4 weeks using the Shape Up method by Basecamp.

Helps build the design system, and improve the design team's internal processes and UX efforts and strategies.

Leads the design, project management, content update, and Wordpress implementation of the new and improved product website, www.shape.construction.

Product Design Chapter Lead —UBX Philippines

JUNE 2019 - DECEMBER 2022 / Quezon City, Philippines

🏆 Promoted from Senior Product Designer to Product Design Team Lead (June 2021)

🏆 Interim Product Design Team Lead (August 2019)

Casted vision and drove the team towards a common goal.

Helped grow the team from 5 to 15 designers. Made sure to keep the designers' satisfaction, growth, and excellence at work.

Advocated for data-backed design decisions by creating a UX Researcher job role, integrating research in the design workflow, creating workshop templates, and acquiring a quarterly research budget.

Led the creation and expansion of UBX's design system by acting as its Product Owner. The UBX design system has 70+ unique components with 1,500+ variations.

UX/UI Designer — Salarium

MAY 2018 - JUNE 2019 / Makati City, Philippines

Worked cross-functionally to help manage and design the new version of a digital wallet app for web, iOS, and Android while supporting its old version. Also created its first-ever design library and documentation.

Spearheaded the creation of a centralized copy repository for easier auditing and for a more scalable design process.
